

## Summary

Item	Description
Use Case ID:	4
Use Case Name:	Find children's residential facilities by zip code
Description:	How to look up the address, and other attributes, of children's residential facilities by entering a zip code to view facilities in any Californian area.
Actors:	Web-site user (User), System
Triggers:	
Pre-Conditions:	
Post-Conditions:	Main Flow: 1) Local facilities are displayed Alt Fow 1. System does not perform search
References	

## Main Flow

Step	Action/Cause/Stimulus	Reaction/Effect/Response
1	User visits website	System displays the website home page
2	User navigates to the locations area	System prompts for zip code entry
3	User enters a zip code, and optionally chooses to search for closed residential locations in addition to active ones.	3.1 If the zip code entered is adequate, the System searches by zip code and closed status, and displays the results. 3.2 Otherwise, the System directs the user to the problem and does not continue to the next step
	4.0 User, optionally, selects a home for which to display additional details.	4.0 System displays additional attributes of the selected home.
4	4.1 If additional details are shown, the user may optionally hide the additional details.	4.1 System hides additional attributes of the selected home.
5	User, optionally, returns to step 3 to perform additional searches	
6	This completes the use case	
Alt Flow 1	From Step 3	
A1	User does not submit an adequate zip code	System alerts User to the problem and does not perform a search with the invalid zip code
A2	This completes the Alt Flow
