

## HHS ADPQ Vendor Pool, Website Accessibility

---

The purpose of this website is to let users gain access to information that matters in ease and without any complications.

Our homepage includes main contents that a user would need: Login, E-mail, Facility Search, and Profile.

Login: You will need a valid e-mail to move forward in gaining access to your profile page and inbox. If this is your first time on the website, the registration section will allow you to have full access within minutes. You will need to provide the following:

- 1) E-mail
- 2) Last/First Name
- 3) Address, City, State, and Zip Code

After completing registration you will have full access to a private inbox where you can compose e-mails to communicate with case workers, have a profile page, and access to facility information within proximity of searched zip code.
