

# CaliCares Tips – Quickly see the feature set

We realize that not everyone viewing our application will be able to spend time customizing their CaliCares instances so we've outlined two features you may have otherwise missed.

## Signing in for the first time

After signing up, you are welcomed into CaliCares where all of your previously entered information is pre-populated so that any updates to information can be made right here in the application! Please note that the sign in data and user session are emulated so it will only save within the same browser.

The screenshot shows the CaliCares application interface. At the top, there's a header with the CaliCares logo, a 'Welcome Kathy!' message, and a 'Logout' link. Below the header are three navigation icons: 'My Profile', 'Inbox', and 'Facilities Near You'. The main content area is titled 'Your Household Profile' and has two tabs: 'General Information' (selected) and 'Household Members'. A white dialog box is centered on the screen with the text: 'Welcome to CaliCares! Use CaliCares to manage your family profile information, imported from the Child Welfare Services Case Management system with your log-in ID. Remember to keep your information up to date!'. Below the text is an 'Okay' button. The background shows the 'Household Information' section with fields for Address, Primary Phone, Primary Email, Alternate Phone, and Alternate Email, each with an 'Edit' link.

Example of editing household information.

The screenshot shows the 'Edit Household Information' form in the CaliCares application. The header is the same as the previous screenshot. The main content area is titled 'Your Household Profile' and has three tabs: 'General Information' (selected), 'Household Members', and 'Children Under Your Care'. The form is titled 'Edit Household Information' and contains two columns of input fields. The left column has fields for Address, Primary Phone, Primary Email, Alternate Phone, and Alternate Email. The right column has fields for Type of Home, Provider Number, and Insurance. At the bottom of the form are two buttons: 'Cancel' and 'Save Changes'.

## Finding facilities and understanding capacity

When you open the 'Facilities Near You' tab, you will see a list and map view of the facilities in a pre-populated zip code. You can type different zip codes in the search to see facility capacity in other areas. Capacity is highlighted as it is an important part of how providers choose which facilities to contact.
